

# Calorimeter TDC calibrations

- Calibrations are not critical for data taking or PROD
- Rely only on Raw Banks
- Easy to apply to not corrected data

# Questions

---

1. What system should we be a part of?
2. Can we fully automate the whole process?

We propose new CALTDC system

Need help with setting up the code that produces  
Valid Sets and Used Sets

Calibration code is ready to go
